Quality Objectives

Our quality objectives are reviewed annually to ensure they are fit for purpose and that they meet the requirements of our customers, the business and other stakeholders and regulators. The key quality objectives are reviewed regularly by the Performance Management Group to ensure progress is maintained.

We will communicate with employees to bring about an awareness of performance and business objectives that will in turn lead to improvements to the service generally.

This policy is published on the Intranet and forms part of the awareness training given to employees and suppliers and is publicly available upon request.

Our professional and dedicated employees are wholly committed to this aim and the realisation of our core values, having embraced our quality conscious and customer care policies.
